

I urge the FCC and Sen. John McCain to continue to dis- allow corporate merger - takeover of America's media network. Do you think we are all asleep in the public sector? If this sounds devious to the public how can you consider this de-regulation of the media ownership and think we don't notice you are devious too? Our free society will be marching toward facism if you allow monopolistic ownership of media. It is your responsiblity to keep our media independent and free, Senator.
